

Proteus offers solution for Business Intelligence KPI presentation

Proteus has proven its value as a critical reporting and analysis tool in some of the world's largest Oil & Gas projects.

Feature highlights:

- Drill down KPIs dashboard fed directly from your existing systems.
- Minimal deployment time, combined with extreme flexibility.
- Generate historical tracking of your data – show trends.
- Produce audit trails of any granularity required.
- Easily incorporate GIS data or 360° Panoramic pictures.
- And much more...

Proteus users:

- Aibel
- Aker Solutions
- Bergen Group
- ConocoPhillips
- Sercu (U.S)
- AVI Bio (U.S)

Put Proteus to the test - At no risk: No cure, No pay

Let us work with selected professionals in your organization for a day to set up a working solution to some of your reporting / integration / analysis challenges, and use the solution for a month to evaluate if you wish to invest in Proteus. The cost for this time will be charged only if you decide to purchase the product.

Try us – We enjoy challenges!
